Since inception in 2007, JIA Lighting has come a long way.

With kind support & faith of everyone around, JIA Lighting has achieved more than 50% growth rate over the previous year. As on 1st June 2017, JIA lighting commands over 20% market share in India.

We offer India’s largest range of Professional lighting products at price that are considered as benchmark /Target by our competitors. Not just our products, our spare parts are also offered a low price.

We consider it our obligation to provide free service for our products. Though the spare parts are chargeable, our primary target is to repair the product without replacing any parts. Quality is our priority. It takes a lot of time, dedication, hardship & sacrifice to earn respect & goodwill. We take it very seriously & make our best efforts to deliver lasting products & services that JIA stands for.

We are the only lighting company in India doing R&D and challenging Industry norms to create new products.

We enjoy working because our job is our passion. Hence, profit is not in our priority list. We have our own set of rules that are upsetting for some at times.

J195 DMX 240
LIGHT CONTROLLER

Technical Parameter
Control up to 12 projectors, each to 20 channels.
30 banks of memory up to 240 scenes
6 chaser programs each up to 240 steps
Independent fog machine control
Assignable and reversible wheels for pan/tilt movement
Midi interface: In/out/thru
Built-in microphone for sound-active mode
DC9X12V 300MA, Adapter included

Dimension: 480 x 135 x 70mm

J192 240 CH
LIGHT CONTROLLER

- High quality, long lasting & precise response.
- Can control 16 Channel, 12 scanner, 12 Chase, 12 M Chase steps.
- 100 Max Chase Steps in a Chase
- 100 Scanner Scene
- Time of running chase can be adjusted
- DMX XLR-D3F Output

J191 DMX 512
LIGHT CONTROLLER

- Copy the chase data from one J191 controller to another J191 controller
- Controls 12 scanners of 16 Channel.
- Controls 12 Chase, 12 M Chase steps.
- 100 Max step Chase in a Chase
- 100 Scanner Scene
- 12 Scenes can be Run Directly.
- Runs scanner manually or by Sound.

J196 DMX 6CH DIMMER
LIGHT CONTROLLER

- 4000W per channel
- 120A total output
- 6 Channels, 20A per channel
- 6 switch control outputs
- 6 sliding potentiometers controlling the single dimming channel
- DMX signal control

J433 DMX 12CH DIMMER
LIGHT CONTROLLER

- 4000W per channel
- LCD display DMX input
- 12 channels, 20A per channel each dimmer module can be pulled out
- Microcomputer control
- Each channel has a separate DMX address
- Built-in 12 running programs, adjustable speed, DMX control, can be selected in turn
- Linear dimming (0% - 100%)
- Linear / switch / curve control mode
- Electronic overheating and short circuit protection, power failure memory

J198 8 WAY SPLITTER
LIGHT CONTROLLER

- Each input and output all have measures of the separately power supply and the optical isolation; it can make the totally isolation on the electrical;
- J198 is a newest DMX Splitter with 3-XLR
- All the ports are equipped with port over voltage and static protection circuit
- The inside uses the transformers voltage power supply, more durable and less interference

J356 6 WAY SPLITTER
LIGHT CONTROLLER

- DMX512/1990 Standard
- 6 way DMX distributor with one input
- Independent input and output signal (include earth cable of signal)
- Input / Output: XLR Pin 3 plug
- Separate signal amplifier system and individual LED light of each channel
- Wide input voltage: AC100V-240V 50 / 60Hz
